Business Intelligence & Data Analyst

Business Intelligence & Data Analyst with 3+ years of experience leading ERP-to-BI transformations and cross-regional automation initiatives. Specialized in migrating legacy reporting into centralized Power BI ecosystems, delivering 12+ dashboards and reducing processing times by 60%. Strong background in Dynamics 365 F&O, data governance, and executive-level reporting. Currently deepening expertise in SQL and Python to expand into advanced data analysis, automation, and scalable analytics solutions.

Experience

KRANNICH SOLAR MEXICO

Business Intelligence Analyst **Aug 2023 – Dec 2025**

- Led BI and IT initiatives across Mexico, South Africa, Australia, and Singapore, aligning cross-regional ERP workflows.
- Designed scalable semantic models (DAX, Power Query) extracting data via ODATA from Dynamics 365 F&O.
- Migrated legacy Excel reporting to a centralized Power BI ecosystem (12+ dashboards, 60% faster processing).
- Automated 6+ workflows using Power Automate, reducing document delivery from 3 days to <24 hours.
- Developed Python automation scripts for data cleansing, transformation, and reporting optimization.
- Acted as Technical Lead during restructuring, reporting directly to CEO and ensuring full operational visibility.
- Implemented data governance policies ensuring 98% compliance with Mexican e-Invoice regulations.
- Led data integrity and system backup strategy during company closing phase, guaranteeing 100% data security.
- Designed and optimized SQL queries (joins, aggregations, subqueries) to support structured data extraction, validation, and reporting accuracy across specific ERP datasets.

Systems & Data Governance Specialist **Aug 2022 – Aug 2023**

- Directed ERP data governance implementation (98% integrity across Sales, Procurement, Finance).
- Trained 10+ users on system best practices, reducing user-generated errors by 80%.
- Built early-stage automated data extraction logic to prepare ERP infrastructure for BI scalability.

Education

Instituto Politécnico Nacional (ESCOM) B.Eng. Computer Systems | 2017–2022

Certifications

Universidad Da Vinci (2025) Data & Business Analyst Certification
Microsoft (2021) AZ-900 Azure Fundamentals

Technical Skills

BI & Analytics: Power BI, Excel, Tableau, DAX, Power Query, Data Modeling, ETL
Programming & Automation: SQL, Python, Power Automate, Git, Generative AI
ERP & Data Sources: Dynamics 365 F&O, ODATA
Cloud & Tools: Microsoft Azure, Microsoft 365
Languages: Spanish (Native), English (Full Professional), Italian (Conversational)
